

PHISHING INVESTIGATION REPORT

File Name: advanced_encoded_test.ps1

Risk Score: 1000

Risk Level: CRITICAL

Verdict: QUARANTINE

MITRE ATT&CK:

T1566.002

Findings:

Sandbox IOC URL: <https://evil.com/payload.exe>

Sandbox IOC Domain: system.convert

Sandbox IOC Domain: evil.com

YARA rule matched: URL Indicator

YARA rule matched: PowerShell

Behavior Rule: PowerShell Downloader Detected

Process Tree: powershell.exe

Process Tree: powershell.exe -> network download

Process Tree: downloaded executable

Network Activity: Outbound Connection Detected

Network Activity: Internet Communication

Network Activity: Potential Payload Download

Dropped File Detected: payload.exe

Persistence Detected: Registry Run Key Modification

Persistence Detected: Registry Persistence Creation

VirusTotal: hash not found

Docker Analysis: PowerShell Indicator

Docker Analysis: URL Detected

Docker Analysis: Executable Reference

Docker Analysis: Text File Detected

Docker Analysis: Base64 Decode Function

Docker Analysis: Encoded PowerShell

Docker Analysis: Download Activity

Docker Analysis: Registry Persistence

Docker YARA Match: PowerShell Downloader

Docker YARA Match: Registry Persistence

Docker YARA Match: Encoded PowerShell

Docker Event: Container Started

Docker Event: File Mounted

Docker Event: Execution Successful

Docker Event: Container Destroyed

Docker Duration: 56 seconds
