

PHISHING INVESTIGATION REPORT

File Name: test_payload.ps1

Risk Score: 350

Risk Level: HIGH

Verdict: QUARANTINE

MITRE ATT&CK:

T1566.002

Findings:

Sandbox IOC URL: <https://evil.com/payload.exe>

Sandbox IOC Domain: evil.com

YARA rule matched: URL Indicator

YARA rule matched: PowerShell

Process Tree: powershell.exe

Process Tree: powershell.exe -> network download

Process Tree: downloaded executable

Network Activity: Outbound Connection Detected

Network Activity: Internet Communication

Network Activity: Potential Payload Download

Dropped File Detected: payload.exe

Persistence Detected: Registry Run Key Modification

Persistence Detected: Registry Persistence Creation

Persistence Detected: Registry Value Modification

Behavior Rule: PowerShell Downloader Detected

VirusTotal: hash not found

Docker Analysis: PowerShell Indicator

Docker Analysis: URL Detected

Docker Analysis: Executable Reference

Docker Event: Container Started

Docker Event: File Mounted

Docker Event: Execution Successful

Docker Event: Container Destroyed

Docker Duration: 2 seconds
